## Press Release

### XP1Power Wireless Battery Charger

---

**LOS ANGELES, CA, January 11, 2011** – Xmultiple, a global manufacturer of connectivity products has released their product line of XP1Power wireless chargers.

Portable electronic devices are very popular nowadays. As the usage of these portable electronic devices is increasing, the demands for longer battery life are also increasing. These batteries need to be recharged or replaced periodically. It is a hassle to charge or change the battery after a while, especially when there is no power outlet around. Therefore, our team was inspired to design the XP1Power wireless battery chargers. This wireless battery charger eliminates all the hassles with today's battery technology.

It would be convenient not having to worry about charging or changing the batteries and still have a working device. The advantage of this device is that it can wirelessly charge up the batteries which can save time and money in a long run for the general public. Base on the wireless charging concept, our design team developed three powerful models to charge batteries wirelessly.

The XP1Power Wireless charging system provides a fast, simple, and efficient way to charge all of your favorite personal electronic devices. The charger is always ready to charge. Just Drop and Charge your devices on the XP1Power Mat and experience wireless charging.

## How Does It Work?

**Inductive charging** uses an electro-magnetic field to transfer energy between two objects. The XP1Power wireless charging stations send energy through inductive coupling to an electrical device. The device stores the energy in their batteries once placed on the charging mat.

### XP1Power Wireless Charger Features:

- Simple to use – just drop on mat and charge
- No messy wire or tangled cords
- Home & Office Mat charges up to 4 devices
- Mat includes receiver with tips
- Powered by an Energy Star certified AC Adapter.

XP1Power wireless charges are wire-free, sleek, revolutionary electric power delivery banks for mobile device. The innovative wireless charging is a power solution which delivers true freedom to be mobile. The XP1Power wireless chargers have prices from \$49 to \$59.
