iPad 2 in 1 USB and SD Flash Memory Adapter

2 in 1 Adapter For iPad - Extra Functionality on Your iPad While On The Go

Los Angeles, California, June 2, 2010 – Xmultiple releases their MultiplesPlus iPad 2 in 1 Adapter

Give your iPad multiple functions with our 2 in 1 adapter. Connect your iPad with a USB device and simultaneously insert and operate a SD flash memory card. The MultiplesPlus iPad 2 in 1 Adapter connects your camera as well as connecting SD flash cards.

SD cards can be used on your desktop computer, laptop, camera or other device and operate with your iPad as well. Take pictures with your camera and load them into your iPad with our 2 in 1 adapter. Simply attach the 2 in1 adapter to your iPad. Now you have all the content on the SD card with a few strokes of your finger on the iPad keyboard. Have the power of our 2 in 1 adapter and expand the functionality of your iPad.

MultiplesPlus iPad Camera 2 in 1 Adapter Advantages and Features:

- **1: 2 in 1 camera connection kit + card reader for iPad**
- **With the iPad Camera Connection Kit, it's incredibly easy to download photos from your digital camera to your iPad so you can view them on the gorgeous iPad display and share them with family and friends. Optional USB to AC power adapter available**
- **The Camera Connector features a USB interface. Just plug it into the dock connector port on your iPad, and then attach your digital camera or iPhone using a USB cable (not included).**
- **Use the SD Card Reader to import photos directly from your camera's SD card. Connect it to your iPad, and then insert your digital camera's SD card into the slot.**
- **After you make the connection, your iPad automatically opens the Photo app, which lets you choose which pictures to import, then organizes the selected photos into albums. When you sync iPad to your PC or Mac, the photos on your iPad are added to your computer's photo library.**

The MultiplesPlus 2 in 1 iPad Adapter is a great accessory—the single most important purchase currently available for iPad users who enjoy photography. The USB port is a must have function for iPad users interested in attaching to compatible USB devices. Used purely for importing digital images and videos, the MultiplesPlus iPad 2 in 1 Adapter enables iPad owners to share and store considerably higher-quality content. The Adapter does not drain the iPad battery so you can use it without worries about power consumption. The MultiplesPlus iPad 2 in 1 Adapters release is a considerable improvement to the iPads functionality and capability.

The price for the MultiplesPlus iPad 2 in 1 Adapter is \$29.95. Call for a distributor located in your area.
