[iXP1-500 USB Adapter Lets Your iPad Charge Anywhere](#)

By Andrew Liszewski

Tired of not being able to charge your iPad on non-Apple computers or even older Apple hardware? Well with this \$4.95 iXP1-500 USB adapter from [XP1-Power](#) you'll never see that annoying 'Not Charging' message ever again. It sits between the iPad's sync cable and the USB port on any PC and does some kind of hokus-pokus allowing the iPad to charge no matter the hardware. The website is completely vague and useless

iPad does charge from other USB ports - just more slowly.

 [Sergev Trambovetskiy](#) 6 days ago

voltage to current transformer inside, but keep in mind - it takes 4 times longer (or even longer) to charge iPad
